Product Summary

Electrolux 36" Induction Cooktop with 5 Indcution Elements - Stainless Steel

Explore your culinary creativity with the advanced features of the Electrolux Induction Cooktop. The Precise Temperature Control Function takes the consistent heat of induction cooking to the next level and Power Slide allows you to go from boil to simmer with a quick slide of the pan.

Approximate Dimensions (Inches)

Height: 4 3/8

Width: 36 3/4

Depth: 21 3/8

Product Description

Precise Temperature Control Function

Create a perfect berry reduction or slow-simmered marinara without scorching with our Precise Temperature Control function. Unlike other induction cooktops, our technology uses a sensor to continuously measure pan temperature and automatically adjusts the heat to ensure your pan maintains the temperature you set from start to finish.

Power Slide

Boil, sear or saut, on the front burner and when you're finished, simply slide the pan to the back burner and the cooktop will automatically adjust to keep food warm and ready to serve.

Bridge Feature

Expand your culinary horizons to specialty foods like crepes and paninis with a Bridge Feature that connects two cooking elements for even heat even with larger pans or griddles.

Energy-Efficient

Use less energy while you cook with energy-efficient induction technology which heats the pan directly for less heat loss.

Quick & Responsive

Induction technology transfers heat directly to your cookware, bypassing the cooking surface which allows the cooktop to respond more quickly to temperature changes for more precise cooking and allows your food to cook faster and your cookware temperature to adjust more quickly to than with gas or traditional electric cooktops.

Easy-to-Clean

Clean your cooktop with ease with induction technology that allows the cooktop to stay cooler so foods won't burn on.

Serve Warm Mode

Dinner parties are more effortless with Serve Warm Mode which sets all the elements to warm, keeping your dishes at the perfect temperature for family and friends to serve themselves.

Automatic Pot Detection

Get cooking with ease with automatic pot detection that lights the controls for the element as soon as you set down your pan.

Sleek Design

This cooktop seamlessly integrates into your kitchen with a sleek design featuring hidden controls, sharp edge detailing and the Electrolux signature chamfered glass.

Perfect Fit Promise

We guarantee that our cooktop will fit your existing space or we'll reimburse the cost of your countertop modifications.
